

FCP 100

An Overview of Final Cut Pro 7

Professional Editing in Final Cut Studio

To Register

Check the course [schedule](#) for a list of classes available for registration at [Apple Authorized Training Centers](#) (AATCs) worldwide.

Build Credibility. Get Certified.

This course covers most of the requirements to become an [Apple Certified Pro, Final Cut Pro 7 Level One](#). To register for the exam, please consult with your nearest [AATC](#).

This certification also counts towards [Final Cut Studio Master Pro](#) certification which recognizes competency with the entire Final Cut Studio product suite.

What you will learn

- Marking clips
- Using insert and overwrite edits
- Drag-and-drop editing
- Trimming edit points
- Using Ripple, Roll, and Extend edits as well as the Slip and Slide tools
- Finishing and final output

Course Description

This two-day, hands-on course introduces students to the primary feature set and basic interface of Final Cut Pro. In this course, you'll learn to perform basic editing functions while familiarizing yourself with the user interface. Topics include basic setup, adjusting and customizing preferences and settings, capturing video and audio, various editing and trimming techniques, Ripple, Roll, Slip and Slide tools, finishing and final output.

This course is based on the *FCP 101: An Introduction to Final Cut Pro* course. However, this course does not cover all lessons and exercises in the book. Students may complete the exercises that are not covered in class on their own. Students interested in certification may prefer to attend either an [FCP 101](#), [FCP 102](#), [FCP 200](#) or [FCP 250](#) course.

The book for this course is [Apple Pro Training Series, "Final Cut Pro 7,"](#) by Diana Weynand.

Who Should Attend?

This class is designed for anyone looking to edit professional-quality video with Final Cut Pro and who prefers hands-on and interactive instruction to best explore its functionality.

Prerequisites

Students should have the following prerequisite knowledge prior to attending the course:

- Knowledge of Mac OS X and basic computer navigation
- Basic knowledge of editing terminology is recommended

Course Outline

Day 1

Topic	Description
Editing in Final Cut Pro	Launching Final Cut Pro, Final Cut Pro Interface, Following a Workflow, Starting a Project, Importing Clips, Navigating Clips, Marking and Editing Clips, Playing and Navigating a Sequence, Organizing Project Elements, Saving, Hiding and Quitting Final Cut Pro
Building the Rough Cut	Working with Projects, Editing a Rough Cut, Making Overwrite Edits, Managing Timeline Tracks, Making Insert Edits, Editing Audio Clips, Moving Clips in the Timeline, Creating a New Version, Drag-and-Drop Editing and Changing the Volume of Edited Clips
